TECHNOZION

WELCOME TO NITW

Since its inception in the year 1959 as Regional Engineering College Warangal, NIT Warangal has culminated into a premier technical institute in India with its alumni contributing profoundly to the engineering industry as well as ascending to unprecedented heights in finance, art, culture, politics and various other professional disciplines. At NIT Warangal, the faculty and students strive towards not only emulating but exceeding the legacy of the alumni and the institute, by immaculately professing the idea of holistic development of students. Along with their core and rudimentary engineering disciplines, the concepts of art, culture and heritage also have a profuse impact on the lives of the students pursuing their education at this institute of national importance.

ABOUT TECHNOZION

NIT Warangal celebrates its heart and soul in the form of TECHNOZION, the annual technical festival, organized by student fraternity at National Institute of Technology, Warangal. Established in 2006, Technozion has been at the forefront of fostering technological advancements and providing a platform for young minds to showcase their brilliance at the largest technical fest of India. Technozion has grown exponentially to become the largest technical fest in south India. It includes the conduction of 60+ top class events with the aim of gathering engineering students from various regions and providing them opportunity to showcase their abilities and talents. With every passing year, the events at Technozion grow bigger and better. As we eagerly anticipate the unfolding chapters, get ready for the latest installment in the saga - Technozion '23, themed 'INGENIOUS.'
